TAILORING PATTERN SOFTWARE 6.0

Pattern-making software for tailors

Drafting in **30** seconds
Master Touch

Just type the measurements

Choose your cutting output

1 **Enter measurements**
Chest, round, length, armhole

→

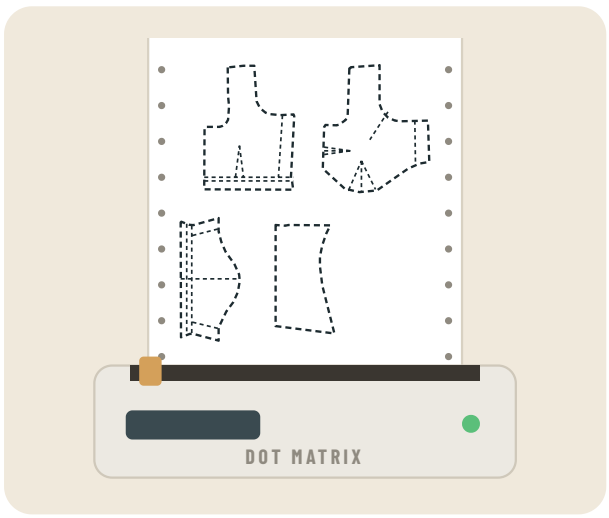
2 **Pattern in 30 seconds**
Darts, neckline, allowance — automatic

→

3 **Get output**
Paper, projector or laser

One blouse (4 pieces) — how long?

Printer		5 minutes
Projector		3 minutes
Laser cut		1 minute



Printer cutting

Printer software

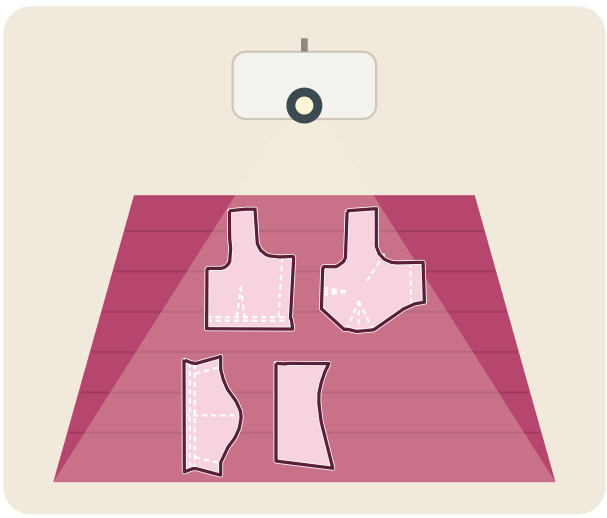
5 minutes

One blouse · 4 pieces

Prints the pattern on a dot-matrix printer — place it on the fabric and cut.

- ✓ Pattern ready automatically
- ✗ No paper needed
- ✗ Cuts the fabric automatically

Best for
Boutique · small shop



Projector cutting

Projector software

3 minutes

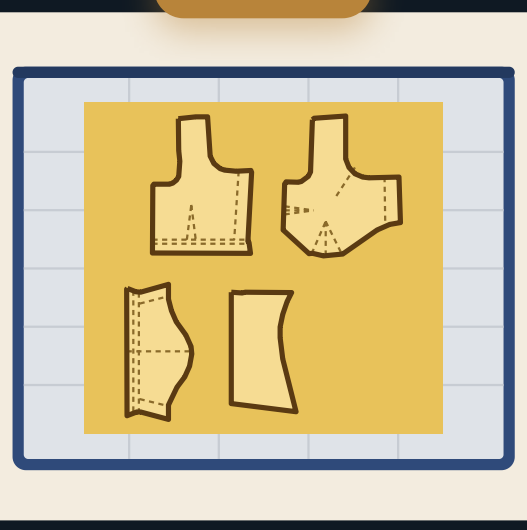
One blouse · 4 pieces

Projects the pattern straight onto the fabric — no paper cost.

- ✓ Pattern ready automatically
- ✓ No paper needed
- ✗ Cuts the fabric automatically

Best for
Boutique · designer

Fastest



Fabric cutting

Laser software

1 minute

One blouse · 4 pieces

The laser cuts all 4 pieces — stitch notches added automatically.

- ✓ Pattern ready automatically
- ✓ No paper needed
- ✓ Cuts the fabric automatically

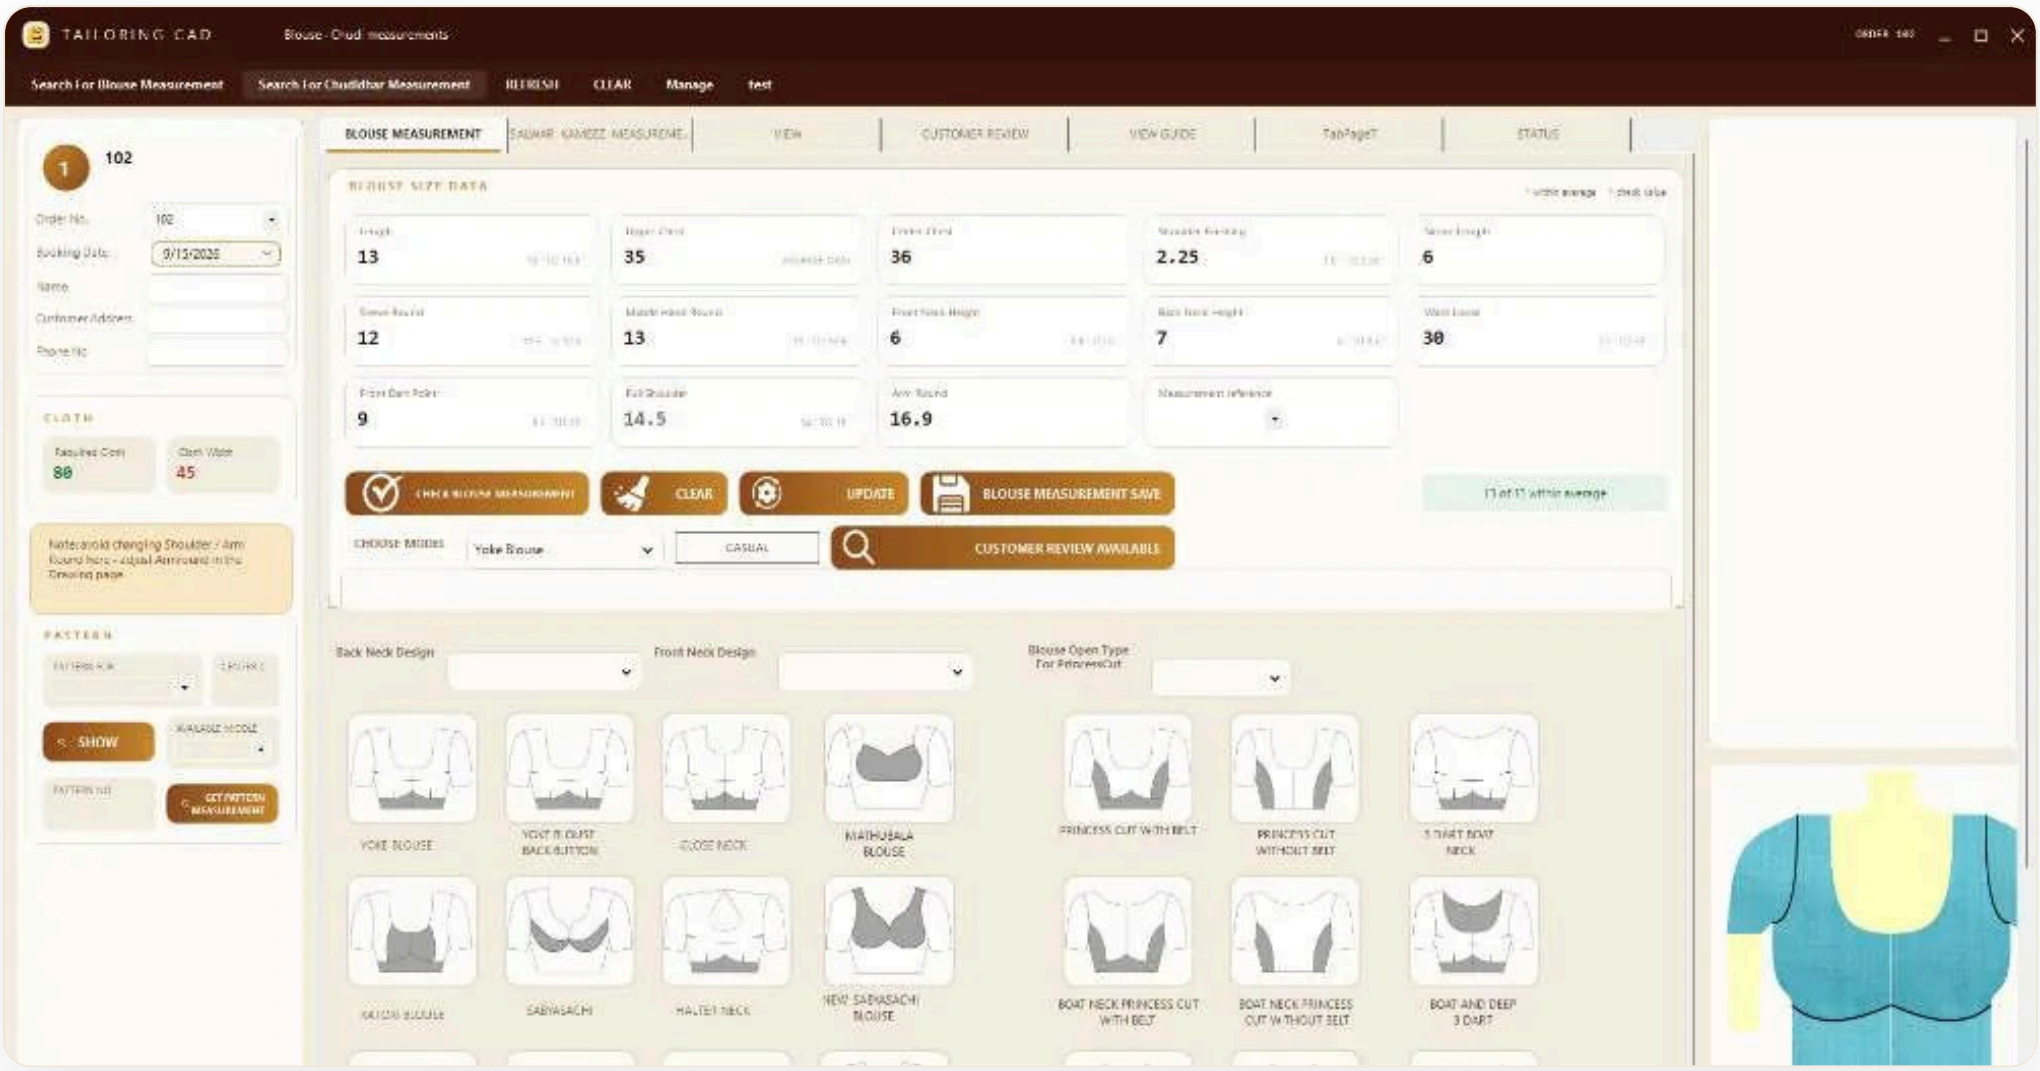
Best for
Mid-size shop · bulk production

* Average time per pattern — from typing the measurements to the output.

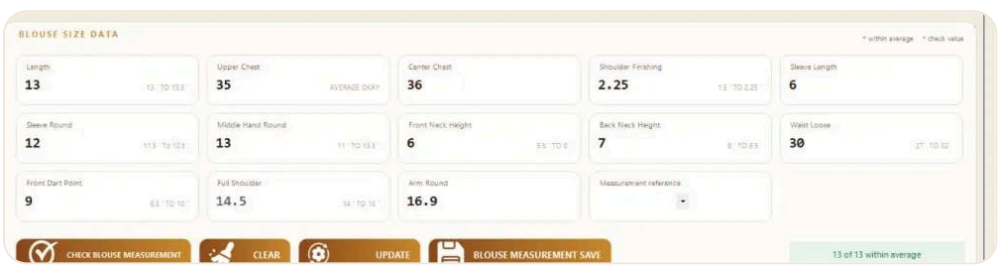
LADIES SOFTWARE · 1000+ MODELS

Blouse order page

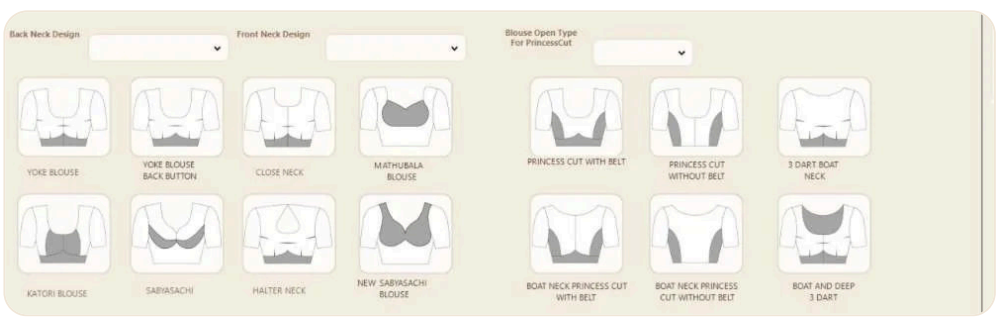
As you enter measurements, each field shows its **average range** — a wrong measurement shows up instantly. Once the “13 of 13 within average” check is done, choose a model and take the pattern.



Blouse order screen — customer & pattern on the left, measurements in the middle, live drawing on the right.



Every field has an average range (13″ TO 15.5″) — anything outside it shows up instantly. Required Cloth 80 · Cloth Width 45.



Yoke · Close Neck · Mathubala · Katori · Sabyasachi · Halter Neck · Princess Cut (with / without belt) · Boat Neck 3 Dart.

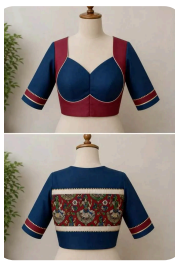
TAILORING PATTERN SOFTWARE 6.0

Every model in one software

Blouse, Chudithar, Western, Pant, Kids — pick a category and browse the models.

Blouse

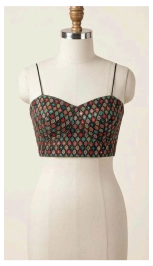
Madhubala, Sabyasachi, corset, cut-out — every trending blouse model in one software. Enter the customer's measurements and the cup, dart and princess-cut lines adjust automatically.



Madhubala Blouse

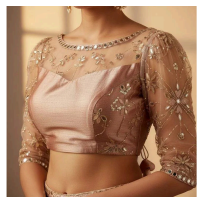
New Sabyasachi

Shoulder Princess Cut



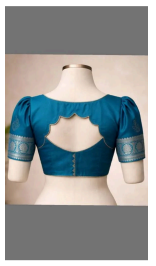
Spaghetti Blouse

Corset Blouse

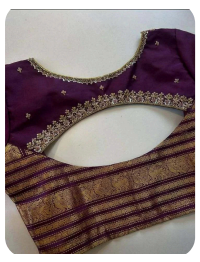


Double Layered

Shoulder Sleeveless



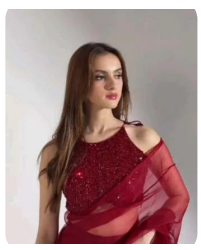
Cut Out · 1



Cut Out · 2

Cut Out · 3

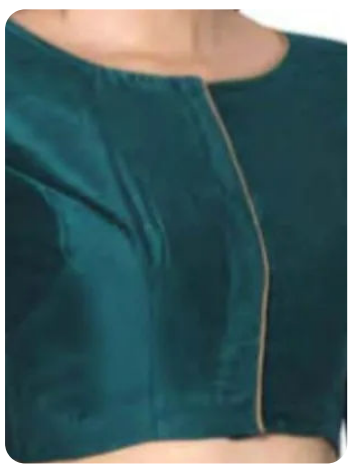
Cut Out · 4



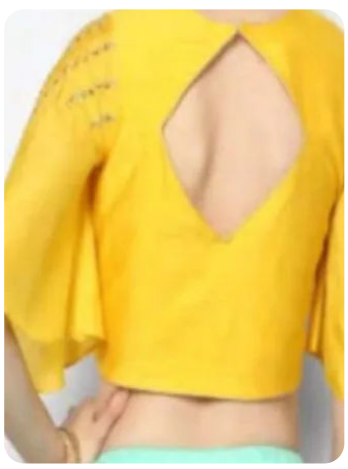
Halter Neck Choli

Stitched blouses — real models

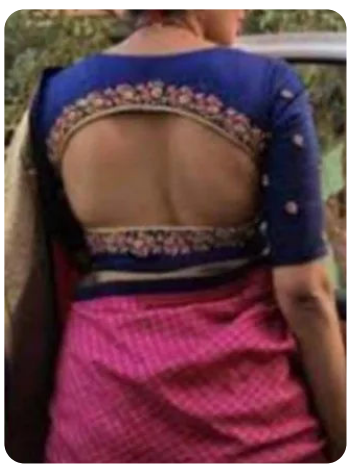
Garments stitched from software patterns. Every model's pattern is available for both laser and printer.



Boat Neck Princess Cut



Back Drop · Key Hole



Back Drop · Reverse U

Neck models — Curved V · Leaf · Pentagon · Square · Deep Pot · Sweetheart.

Cup & dart accuracy

Darts adjust automatically to the bra cup size.

Neck & sleeve library

Switch between many neck and sleeve models on the same measurements.

Customer measurement storage

No hunting for measurements on repeat orders.

Back drop models

Keyhole, reverse U / V, teardrop.

Sleeve models

Puff, ruffle, elbow shapes.

Perfect fitting

Stitching with no alterations.

Chudidar

3-part top, anarkali feeding zip, Alia cut, shrug — every model you need for chudidar orders. Enter the measurements and flare, panels and sleeve length are calculated automatically.

3 Part Top

Anarkali · Feeding Zip

Alia Cut Chudi

Shrug Model

Stitched chudidars — real models

Basic top, front open, anarkali — for every chudidar model, choose the top, pant and neck separately.

Basic Top

Basic Top · Front Open

Layered Umbrella · Anarkali

Chudidar neck models — Round · Leaf · Curved V.

Automatic flare calculation

No need to work out anarkali panel sizes by hand.

Feeding zip option

Zip length and position set right in the software.

Top + pant set

Full-set pattern in a single order.

Top type

Simple / collar / boat-neck kurta.

Pant type

Salwar, palazzo, chudi, patiala.

Bottom style

Circular, asymmetrical, prom skirt.

Western

Pleat, drape, peplum, halter neck — 9 of today's trending western models. The software works out pleat calculations and drape fold sizes automatically.

Tunic Pleated Top

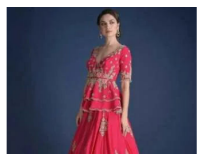
Inverted Box Pleat

Neck Pleated Kurti

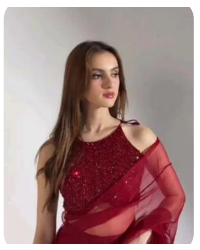
Draped Western

Centre Pleated Top

Shoulder Pleated



Peplum



Halter Neck Choli

Halter Neck Crop Top

Pleat calculation

Pleat count and depth — adjusted automatically.

Drape fold

Accurate patterns for drape models too.

Higher boutique rates

Trending models = higher stitching charges.

Pant

Baggy, bell bottom, slim, palazzo, full circular — 5 pant models. Just give waist, hip, thigh round and length for a complete pattern, crotch curve included.

Baggy Pant

Bell Bottom Pant

Slim Pant

Palazzo Pant

Full Circular Pant

Top + pant in one set

Pair with a chudidar or western top and take the full-set pattern in a single order.

Crotch curve accuracy

A fit that doesn't pull, even when seated.

Waistband options

Elastic / zip / belt loop variants.

Fabric layout

Know the meterage in advance.

Kids

Patterns for kids' wear too, based on age / size. Switch between many models on the same measurements — even small orders are profitable.

One Side Shoulder Top

Shoulder String Top

Age-wise grading

From 2 to 14 years in one click.

Uses leftover fabric

Small pieces — stitched from leftover fabric.

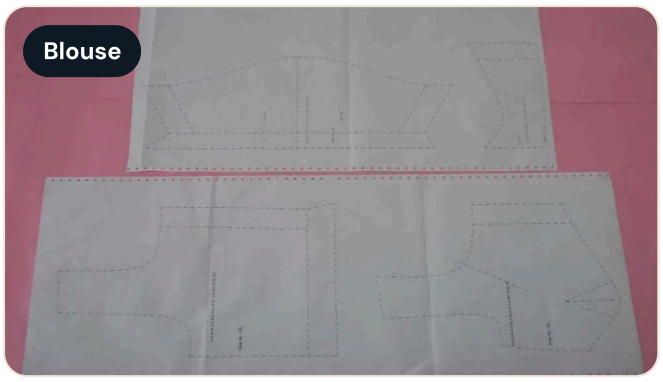
Bulk order speed

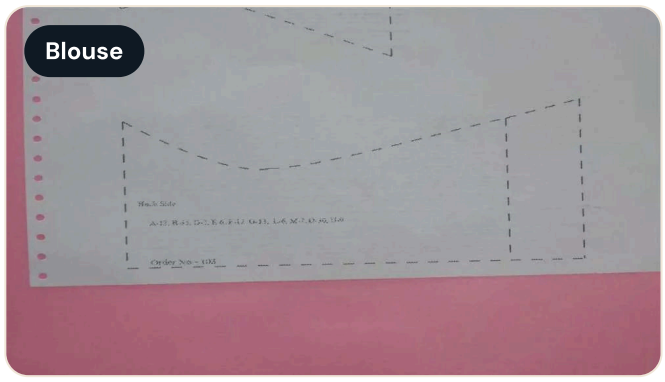
Ideal for school and function orders.

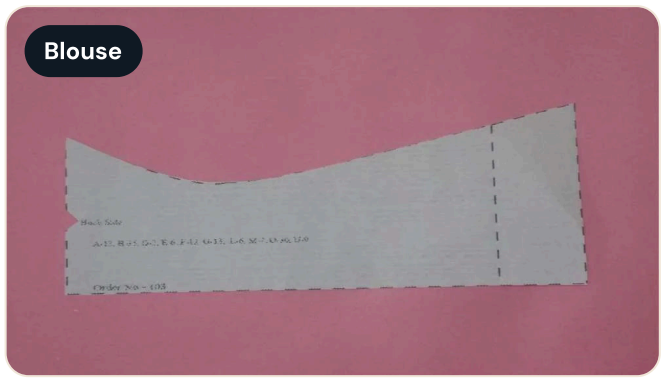
PATTERN PROOF

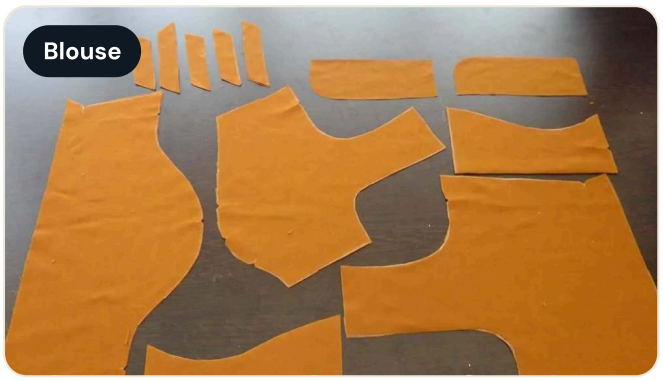
Software output — real cutting paper

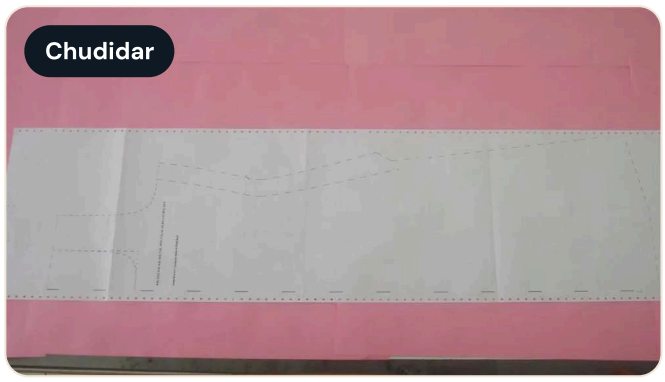
Below are cutting papers printed directly after entering measurements in the software. Every piece carries the seam allowance, order number and measurement notes.

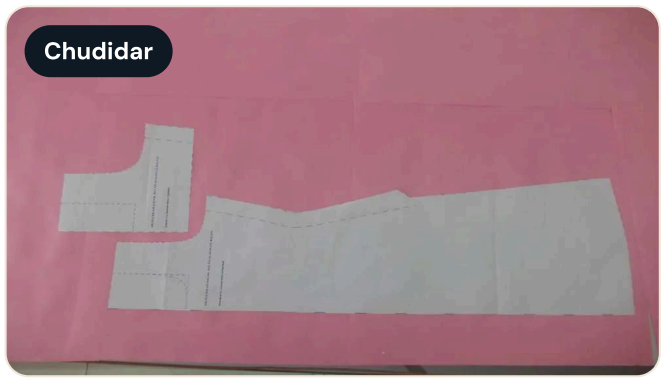












Seam allowance

A clear allowance line on every piece.

Piece label

Order number and measurements printed right on the paper.

Fabric saving

Neat layout — less fabric waste.

On mobile too

Software 6.0 iNNER has a mobile version.

How it works

01

Enter measurements

Chest, round, length, armhole — even someone new to computers can type them in.

02

Pattern draft

Automatic 2D pattern with darts, neckline, flare, panels and seam allowance.

03

Print out

Plotter print — straight to the cutting table.

04

Perfect fitting

Accurate armhole, shoulder and cup — no alterations.

Anarkali feeding zip — a model stitched from a software pattern.

What your shop gains

- Work doesn't stop even when the cutting master is away
- Finish festival-season orders faster
- Fewer alterations — happier customers
- Saved measurements — easy repeat orders

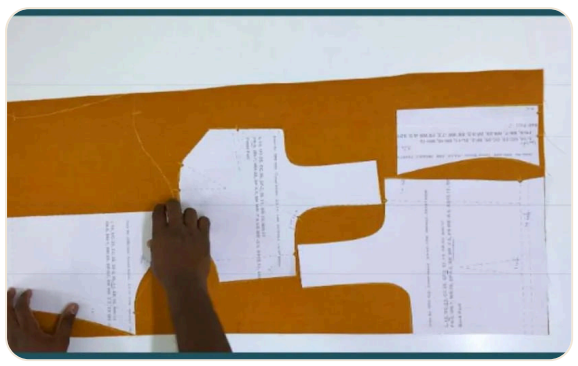
CUTTING OUTPUT

Real output — 3 ways

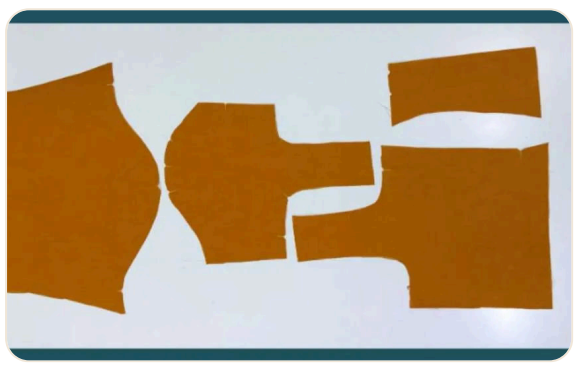
One software — three types of output to suit your shop's size. Printer for small shops, projector for paper-free work, laser for large-scale production.

01 Printer

Print patterns on a dot-matrix printer — place on the fabric, mark and cut.



Printed pattern on fabric — piece name and measurements right on the paper.

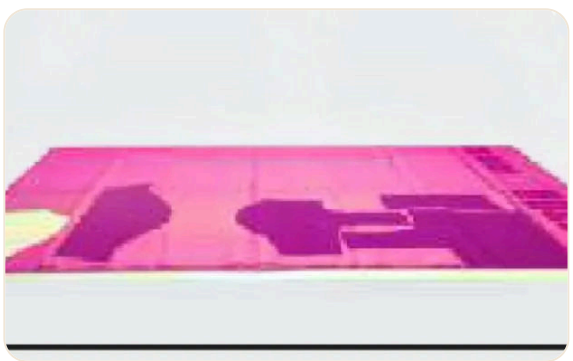


Cut pieces — ready for stitching.

02 Projector

Project the pattern directly onto fabric — zero paper cost.

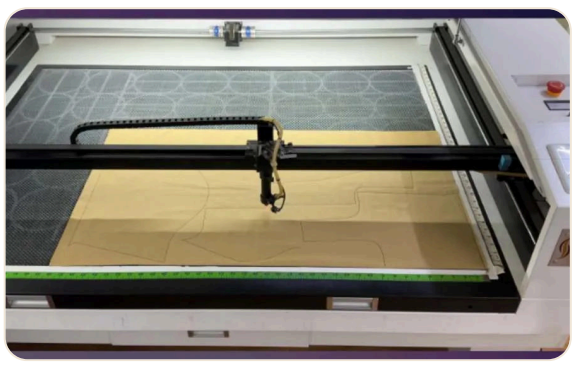
Overhead-mounted projector — runs the software file directly.



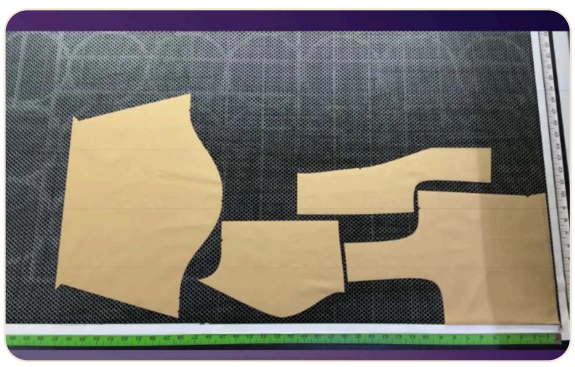
Pattern projected onto the fabric — just mark it and cut.

03 Laser

The laser machine cuts the fabric itself — no hand cutting, 100% accuracy.



Fabric on the laser bed — runs the software file directly.



Laser-cut pieces — clean edges, no fraying.

One software
One measurement entry for all three outputs.

Upgrade later
Start with a printer and move to projector / laser.

Machine supply
We supply the laser machine too.

OUR PRODUCTS

Choose your output

One Tailoring CAD software — choose the output that fits your shop size, order type and investment. Each comes in a **Ladies** (blouse, chudidar, kids) or **All-in-One** (+ gents, uniform) variant.

PSWP · PSALL

Printer software

Patterns in one click on a dot-matrix printer. Hand drafting on brown paper stops completely.

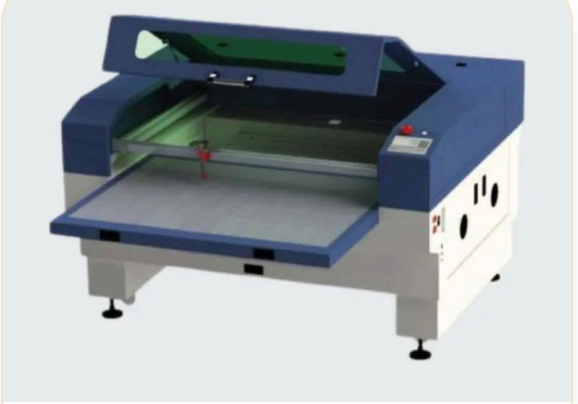
Boutique · small shop

PRSL · PRSALL

Projector software

Project the pattern directly onto fabric and mark it — no paper cost.

Boutique · designer



LSL1390 · AIOL1390

Laser 1390

Bed 1300 × 900 mm. Laser cutting without scissors — **stitching notches** added automatically.

Boutique · Mid-size shop

Ladies variant
Blouse · Chudidar · Kids

All-in-One variant
+ Gents · Uniform

Upgrade later
Start with a printer, move to laser

FEATURES & SUPPORT

Why this software

Anyone with basic computer knowledge can learn it in a day. From installation to training — we take care of everything.

Automatic drafting
Enter customer measurements and get the full pattern automatically.

One-click print
No hand drawing on brown paper.

Stitching line + notch
Plotter / laser draws stitching lines and notches.

Cutting accuracy
The same quality fit for every customer.

Higher order capacity
Save drafting time — earn more every day.

Consistent quality
Many tailors, many orders — the same output.

Support & training

- On-site installation — set up right in your shop.
- 4 hours of live training + 8 recorded classes (2-day training for the laser machine).
- Dedicated relationship manager + WhatsApp group support.
- Tamil, Malayalam, Telugu, Hindi, Kannada — 9:30 AM – 6:00 PM.

Laser machine specifications

	1390	1610
Bed size	1300 × 900 mm	1600 × 1000 mm

Room size	10 × 12 ft	10 × 12 ft

WHY FASHION DOT

18+ years of trust · 10,000+ shops

Coimbatore, Chennai, Bengaluru, Hyderabad, Delhi — and now Pune. Software used every day by more than ten thousand tailors & boutiques.

18+
Years of experience
Only in tailoring CAD

6
Cities
Service & support team

10,000+
Installations
Shops, boutiques, units

10,000+ happy customers — straight from their shops.

Coimbatore · Chennai · Bengaluru · Hyderabad · Delhi · Pune.

What customers say

> "Even my shop staff who don't know computers use it easily."

> "Alterations have almost stopped — the fitting is perfect."

Service guarantee

- Direct service teams in 6 cities
- Support in 5 languages — 9:30 AM – 6:00 PM

PACKAGES

Software packages

Take only the package your shop's order type needs. You can add the other packages later.

Blouse & chudidar · 1000+ models · 2 – 14 years

Ladies + Kids Software

- Blouse — Madhubala, Sabyasachi, corset, cut-out
- Chudidar — 3-part, anarkali feeding zip, Alia cut, shrug
- Western + pant models
- Measurement check (within average) + customer review
- One Side Shoulder Top · Shoulder String Top
- Age-wise size grading

Common to all packages

- 7–10 days of recorded training videos
- WhatsApp group + dedicated support channel
- Tamil, Malayalam, Telugu, Hindi, Kannada — 9:30 AM – 6:00 PM
- Remote installation — start using it the same day

First step

- 30-minute free online demo — using your own shop's measurements
- One free sample pattern for your customer's measurements
- Stitch it, check it, and decide only when you're satisfied

Which package suits your shop? Call and talk to us — we'll recommend one based on your order type.
